

Acknowledgement

This is dedicated to all the people whom i met, gave their advice and got me to learn something. I am very grateful for help that i got from my mentor Mr. D. B. Patel, Gujarat University and Dr. U. S. Joshi, Gujarat University, without them this project can not become reality. They guided me through both implicit and explicit help. I am also very grateful to Swati Ma'am, from the Condensed Matter Physics lab of Gujarat University. She guided me with every step in this project and lab instrument with a very approachable manner. I also like to thank all the proffesors of Physics department, Gujarat University for their help and support.
